Al, Miguel,

FYI - Attached to the email below is the Goliad map with a chart inserted reflecting the approximate distances between the domestic water wells in the area and the exemption boundary.

Ray Leissner, Env. Eng.
Ground Water / UIC Section (6WQ-SG)
(214) 665 - 7183
USEPA, Region 6

The FIRST STEP in protecting your ground water is to have your well tested.

Phil, Bill,

As you may recall, in our last briefing with Al on Goliad and Rosita, Al suggested we examine the distances between the domestic water wells and the boundary of the proposed exemption in Goliad. Below John provides the map with a chart super imposed reflecting those distances. I estimated the distances using the map scale and a compass. The map is only in electronic format at this time but if you

believe he might want this for his discussions with UEC, in a paste board format, we can do that. Thanks
